

SOLID WASTE PROCESSING 2007 - 2009

(Approximate Annual Averages)

Trash & Garbage	2081 Tons
Construction/Demolition Debris	1109 Tons
Recyclable (income producing)	1493 Tons
Yard Waste	250 Tons
Shingles	432 Tons
Electronics	25 Tons
Approximate Annual Solid Waste Volume	5390 Tons

Approximate annual solid waste volume hauled to disposal facilities 3190 Tons

Recycle Rate 61 %

Wolfeboro has a 5 year Solid Waste hauling and tipping contract (thru 31 Dec 2010) which includes:

SW hauling fee increases of about 5% per year.
SW tipping fee increases of about 5% per year.

The costs and income based on 3 year ave.

Annual hauling costs (approx): \$82,598
Annual tipping costs (approx): \$280,898
Annual tipping & recyclable income (approx): \$213,357

To minimize cost increases, the solid waste volume must decrease, i.e., RECYCLE more.

THE FOUR R's OF SOLID WASTE

Reduce. Buy only what you need and use up whatever you buy. Look for items with a minimum of packaging.

Repair. Fix items that are broken rather than purchase new ones.

Reuse. Look for reusable items rather than disposable ones. If you can no longer use something, find someone else who can, through donations, garage sales, classified ads or resale shops.

Recycle. Create new items out of unwanted ones.

**CLOSE THE LOOP
BUY RECYCLED PRODUCTS**

These Solid Waste facilities are open only to Wolfeboro residents with current permits. Permit stickers are available at the Town Offices as well as the Solid Waste Facility.
