He stated Linda Murray had asked a few questions and one of them was in regard to the expenditures of telephones in the Planning Department Budget. Mr. Chamberlin stated he felt there needs to be some reallocation here. He stated in the Code Enforcement there were some negative numbers in some columns which ended up being a journal adjustment. He stated the percentages expended-to-date as of the end of February 2017 is as follows: General Fund 16.3%, Water Fund 24.3%, Electric Fund 14.2%, Sewer Fund 43.1%, Pop Whalen Fund 25.3% and the overall expended-to-date is 18.072%. Mr. Chamberlin stated the auditors are here and everything is going smoothly.

B. Wolfeboro Community TV

Tim Goodwin, Executive Director of Woleboro Community TV, addressed the Board. He stated his directors wanted to make sure they were providing the services the Board of Selectmen expected and that he realizes there have been some issues with the quality of

the live broadcast. Mr. Goodwin asked the Board if they wanted to continue with the live broadcasts. He stated Wolfeboro Community TV enjoys doing the broadcasting and they are looking into some ways in improving the quality. Mr. Goodwin stated he had met with a consultant last week about some of these issues and he provided a few suggestions. Unfortunately, at this time Mr. Goodwin did not have any numbers or figures to share with the Board about how much this would cost. Mr. Goodwin stated there are no problems tonight with the broadcast.

Dave Senecal stated most people like the live broadcast. He stated sometimes people have been frustrated because they can't see or hear at times during the live broadcast. Mr. Senecal stated he would be interested to know what the cost or type of equipment is required to make it better.

Mr. Goodwin stated the system we have is working but part of the glitch might be the internet connection between the Town Hall and the School. He stated it seems to be the process that is part of the glitch. Mr. Goodwin stated he would let the Board know when he had some figures and has put a package together for their review.

Luke Freudenberg asked if it was a connection upload.

Mr. Goodwin stated no, it is the multiple steps that we have put together.

Mr. Goodwin stated he is trying to look at a VPN tunnel with the consultant to see if that would work from the Town Hall to the studio at the school. He stated each box through the process puts a little delay in the process itself. There is a slight delay with the process.

Linda Murray stated she felt there is a real frustration within the Community. She had numerous complaints about the broadcasting of the Deliberative Session. She stated at times there was no picture and it was fuzzy so people could not hear it. Ms. Murray stated if most of the time we can keep it clear and it works then we should continue doing it. Ms. Murray stated if we constantly have problems then people are not going to watch it. Ms. Murray suggested getting a cost because they have spent a lot of money over the years to find a solution to the problem and nothing they have done has solved the problem. She stated it would be nice if Mr. Goodwin could find something to solve the problem and if he had a price maybe he could look at raising money through grants or other means.

Mr. Goodwin stated he needed to get a number first.

Ms. Murray agreed.

Chairman Harriman stated the Wolfeboro Community TV has talked about this and wanted some feedback on how the Board of Selectmen felt. Chairman Harriman suggested having Mr. Goodwin come to the Board of Selectmen meetings every few months to give them an update on what is happening.

The highest article to pass this year was the Electric 390 Line at 92.2%; therefore, people must be tired of having their electricity go out because of that. Ms. Murray stated this was the first year where no warrant article got passed with under seventy percent with approval. Ms. Murray stated she was very surprised to see the number of voters this year compared to last year because of the storm.

Chairman Harriman stated he was surprised to see the margin of approval of all of the warrant articles they had recommended. He thanked the voters of the Town of Wolfeboro for that.

Joe DeChiaro, Chairman of the Board of Directors of the NH Boat Museum, addressed the Board. He asked if they could participate in the pilot program again.

Mr. Owen stated the Electric Department did a new rate comparison between the Wolfeboro Municipal Electric Department rates and Eversource (which used to be Public Service of NH) and also with NH Electric Co-op. The comparison is favorable to the Wolfeboro Municipal Electric Department. The customer cost for 500 kwh/month is approximately \$25.00 cheaper. The comparison table is available on the Town website.

Mr. Owen stated the proposed quarry in New Durham is having a public hearing on Tuesday, April 11th at 7:00 PM at the New Durham Elementary School Gymnasium.

Mr. Bowers asked if weight limits could be put on Middleton Road if New Durham was going to be using it continuously.

Mr. Owen asked Mr. Ford for his opinion. Mr. Owen stated he did not think you could restrict trucking on a road that the State paid 2/3rds of the cost for.

Mr. Ford stated the legal question should go to Town Counsel. Mr. Ford stated our roads are built to handle commercial traffic and he did not think that was the way to handle the concern. He stated we should state our concerns and the local government need to make a decision about their regulations. Mr. Ford stated we need to make sure the residents in Wolfeboro are protected from potential issues that could arise. Mr. Ford stated limiting that road is very serious and should be a legal question.

Mr. Bowers asked if the Board of Selectmen could make a resolution stating they opposed it.

Mr. Ford stated concerns could be expressed and a letter has been sent with these concerns but another letter could be sent.

Mr. Bowers asked when the Board would meet again.

Mr. Owen stated April 5th.

Linda Murray stated she was going to the meeting on April 11th and was willing to read a letter from the Wolfeboro Board of Selectmen. She stated she has a vested interest in going because she feels she will be able to hear the noise.

Linda Murray asked if the road could still be posted during Mud Season.

Mr. Ford stated it could be posted. He stated posting limits would affect year round trucking which potentially could be a problem for other businesses.

Linda Murray asked if the road had enough room for a large truck and a school bus to pass with the curves on Middleton Road without any issues.

Mr. Ford stated the issue is about speed. He stated there should not be any issue with a school bus and truck passing if they are going the correct speed and staying in their lane.

Mr. Owen stated at the next Board of Selectmen meeting the Board will want to make the annual appointments for the Boards and Committees. He stated there is a list of Boards and Committees that we are looking for volunteers. They include the Zoning Board of Adjustment, Conservation Commission, Agricultural Commission, Economic Development Committee, Milfoil Committee, Energy Committee, Pathways Committee, Information Systems Advisory Committee, Fisherville Committee, and the Heritage Commission.

Chairman Harriman asked if they advertised it.
