

**TOWN OF WOLFEBORO
CONSERVATION COMMISSION
DREDGE & FILL MEETING
November 8, 2016**

Members Present: Lenore Clark, Vice-Chairman, Ed Roundy, Jeff Marchand, Gail Antonucci, Members.

Vice-Chairman Clark opened the meeting at 6 PM at the Town Hall Annex Conference Room.

**Edward Bradley
6 Keniston Island
Lake Winnepesaukee
Permit By Notification
Tax Map #264-34**

The applicant proposes to replace top 2' of cribs to level up docks.

The Wolfeboro Conservation Commission noted no objection to the Edward Bradley Permit By Notification application, Tax Map #264-34.

**Sawmill Marina Boating Club
33-35 Bay Street
Lake Winnepesaukee
Amendment to Standard Dredge & Fill
Tax Map #203-68**

The applicant proposes an amendment/modification to a Standard Dredge and Fill application filed in 2015 and includes adding 1' to each finger slip. Two finger docks from the main finger dock would be moved to the "north" finger dock; thus reducing the physical projection of the main dock into Back Bay. In addition, the applicant proposes to repair the existing retaining walls to minimize erosion of the shoreline, remove paving along the main dock (to be replaced with grass and plantings), reduce the deck along the boathouse and the removal of additional construction area over surface water, as part of the reconstruction of the main dock.

The Wolfeboro Conservation Commission noted no objection to the Sawmill Marina Boating Club amendment to the Standard Dredge and Fill application, Tax Map #203-68.

Respectfully Submitted,
Lee Ann Keathley
