Standard Dredge & Fill  
Tax Map #210-10**

The applicant proposed to construct an 892 SF dug-in boathouse and dredge 256 SF of submerged lands in the approach to provide safe access and repair the existing permanent pile supported dock in-kind.

***Referencing the Marijn Dekkers/M&A Development Group, LLC Standard Dredge & Fill application, Tax Map #210-10, the Commission objected to the proposal; noting the Commission does not feel that boathouses are the least impacting form of boat storage. The Commission is not in favor of the impacts of dredging the lake bottom to create access to a boathouse.***

***The Wolfeboro Conservation Commission noted no objection to the Tom & Stacy Miller Standard Dredge & Fill application, Tax Map #241-9.***
