2. That the Board and the Superintendent consider awarding student scholarships and academic aid to graduating students as indicated in the wording of School District Policy DDA Woods Estate Expendable Trust Fund.

Penn Air Project – On hold waiting response from builder

Scholarships – Two of the scholarships awarded in June have not been processed as neither student attended school for the fall semester. Both students are expected to begin in January so the funds will be held until that time.

Dave Ford from the Public Works Department will be invited to the next Trustees meeting to discuss the need for any walkways that need to be built in Wolfeboro.
