1. Information tables. There will be 3 information tables set up (Hunter's Market July 10, 10-2, Harvest Market July 17, 10-2, and Clark House (across from farmers market) on July 8th 12-4. The subcommittee has decided that the goal of these information tables is to raise awareness of the Wolfeboro Waters as a town volunteer committee and to also raise awareness of the planned Wolfeboro Bay Watershed Study to be stewarded by the Lake Winni Association. LWA will provide 2 staff members to be at the information tables and Wolfeboro Waters will also have a volunteer present.

We will have information available on Cyanobacteria, Water monitoring, Survey being created by the assessment subcommittee to record observations of the waterfront shoreline and other educational materials from NH Lakes and Lake Winni Association. Warren will get the Survey mounted in some way so that the public can see it and we will provide link to complete the survey on line. There will also be a sign up sheet for those who wish to receive notifications from the WW website.

2. Warren Muir discussed where in the website to store lake monitoring data. He will work with Beverly Woods on this. Warren was also concerned about the ongoing evaluations and synthesis of the evaluations that are coming out of the Assessment Subcommittee. He wants to have an online location to place the summaries of data that add to our understanding of how and when nutrients enter our lakes and ponds. Again, he will work with Beverly Woods on this.

3. A motion was made by Mary DeVries to authorize up to \$100.00 to make a poster and other materials for the information tables. This was seconded by Warren Muir and all were in favor. The mission will have our Logo and Mission statement.

4. Warren suggested that the members of the assessment and prevention and mitigation committee be listed on the web site. Warren will provide the list of assessment subcommittee members to Beverly Woods. Rich Masse will provide the M and P subcommittee names to Bev Wood.
